

An aerial view of a sleek, modern speedboat with a transparent deck, floating on deep blue water. The boat's interior is visible through the clear deck, showing seating and controls. The boat is illuminated from within, and the water around it shows ripples. A semi-transparent banner is overlaid across the middle of the image, containing the text 'PlasDECK | ONCE, FOREVER®'.

*Plas***DECK** | ONCE, FOREVER®

WHY PLASDECK®?

PLASDECK® IS CREATED FOR THOSE WHO WANT ONLY THE BEST FOR THEIR BOAT. PLASDECK® IS PRODUCED IN AKRON (USA), THE WORLD CAPITAL OF PLASTICS POLYMER. HERE IT IS STUDIED AND CREATED USING ONLY THE HIGHEST QUALITY COMPONENTS, MAKING PLASDECK® THE HIGHEST LEVEL PRODUCT AVAILABLE ON THE MARKET.

"SIMPLY THE
EXCELLENCE"

NON-MIGRATORY PLASTICIZERS

EVERY TYPE OF PLASTIC CONTAINS OILS THAT ARE USUALLY FREE TO MOVE INSIDE IT. HOWEVER, AS TIME PASSES, THESE OILS MIGRATE TO THE SURFACE, WHERE THEY CAN BE WASHED AWAY, OR CAN MOVE DOWNWARDS COMPROMISING THE TIGHTNESS OF THE GLUE.

THE OILS CONTAINED IN PLASDECK® DO NOT MIGRATE, BUT ARE INSTEAD FIXED IN THEIR POSITION. THIS MEANS THAT PLASDECK® WILL NOT DRY UP AND/OR MOLDER OVER TIME, MAINTAINING AT THE SAME THE ADHESION TO UNDERLYING SURFACE. THIS PROCESS IS AN EXCLUSIVE PROPERTY OF PLASDECK®, THANKS TO THE SEVERAL PATENTS OWNED. THESE CHARACTERISTICS CANNOT BE FOUND IN ANY OTHER SYNTHETIC COATING ON THE MARKET.

THE BEST UV PROTECTION

PLASDECK® IS EQUIPPED WITH THE BEST UV PROTECTION AVAILABLE ON THE MARKET. IT IS THE SAME USED FOR THE PROTECTION OF THE PLASTIC COMPONENTS OF THE CARS MANUFACTURED BY THE MOST RENOWNED AUTOMAKERS. THE UV PROTECTION TECHNOLOGY IS DISTRIBUTED THROUGH THE WHOLE THICKNESS OF THE MATERIAL, AVOIDING THAT IT WILL BE REDUCED OVER TIME.

ANTIFUNGAL INHIBITORS

THE MOLD AND THE FUNGUS CAN GROW IN EVERY WET ENVIRONMENT. NEVERTHELESS, WITH THE PLASDECK ANTIFUNGAL INHIBITORS, MOLD AND FUNGUS DO NOT HAVE ANY CHANCE.

ONLY THE BEST

1 NO MAINTENANCE

RESISTANT TO EVERYTHING. CLEAN USING SOAP AND WATER, IF NECESSARY USE A HIGH PRESSURE WASHER.

2 ANTI-SKID

WITH PLASDECK® YOU WILL NEVER SLIP. DRY OR WET IT ALWAYS OFFERS THE SAME INCREDIBLE GRIP.

3 CUSTOM LOGOS

PLASDECK® PROVIDES INFINITE WAYS TO PERSONALIZE YOUR BOAT! REQUIRE TO ENGRAVE YOUR OWN LOGO ON THE DECK.

Eco **SERIES**

ALSO IN THIS CASE PLASDECK® DEMONSTRATED TO BE A REAL INNOVATOR LAUNCHING ON THE MARKET A PRODUCT NEVER SEEN BEFORE, WHICH WILL BE INCLUDED IN A NEW MARKET SEGMENT, CHARACTERIZED BY THE HIGH QUALITY OF PLASDECK® TOGETHER WITH A LOW PRICE AND ENVIRONMENTAL IMPACT. THIS NEW PRODUCT STRESSES THE EFFORT OF PLASDECK® IN MAKING ITS PRODUCTS ALWAYS MORE ECO-FRIENDLY, USING ALL THE TECHNOLOGY AT DISPOSAL TO ACHIEVE THIS GOAL.

PLASDECK® ECO-SERIES IS CREATED USING THE LEFTOVERS OF THE PRODUCTION PROCESS OF THE TRADITIONAL PLASDECK®. THE RESULT IS A PRODUCT COMPLETELY CIRCULAR AND ECOLOGICAL, WHICH AT THE SAME TIME HAS A LOWER PRICE. EXTERIORLY, IT WILL BE IDENTICAL TO THE TRADITIONAL PLASDECK, BUT THE BASIS (THE BOTTOM LAYERS) WILL BE CONSTITUTED ENTIRELY BY RECYCLED MATERIAL.

PLASDECK® IS THE ONLY PRODUCER OF SYNTHETIC TEAK THAT COMPLETELY RECYCLES ITS PRODUCT

MORE ECO-NOMIC

MORE ECO-LOGIC

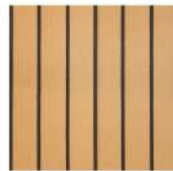

REVEAL

NEW REVOLUTIONARY 100% CUSTOM SYNTHETIC TEAK DECKING

REVEAL CHANGE THE STANDARD PROCESSING METHOD OF CLASSIC SYNTHETIC TEAK. THE LINES ARE ENGRAVED THROUGH A MILLING PROCESS USING A CNC MACHINE, IN THIS WAY IT ALLOWS A LEVEL OF CUSTOMIZATION NEVER SEEN BEFORE.

CURVED LINES, RHOMBUS, HONEYCOMB, LOGOS AND ANY OTHER DESIGN CAN BE INCORPORATED INTO A COMPLETELY UNIQUE REVEAL PROJECT FOR YOUR BOAT.

AVAILABLE IN THE COLORS: GREY-BLACK , AGED-BLACK, MONTAUK-BLACK, TEAK-BLACK

"A NEW PRODUCT NEVER
SEEN BEFORE"

STUDIED FOR...

REVEAL HAS BEEN DESIGNED TO GIVE MORE OPPORTUNITIES FOR PERSONALIZATION IN THE MOST SPORTING APPLICATIONS WHICH OFTEN REQUIRE MORE INNOVATIVE AND UNIQUE SOLUTIONS:

MOTOR BOAT

RIBS

ECOLOGIC AND ECONOMIC...

REVEAL IS CREATED WITH THE SAME ECO SERIES PROCEDURE AND WILL THEREFORE HAVE THE SAME INNOVATIVE FEATURES. 60% OF ITS THICKNESS IS MADE UP OF RECYCLED PLASDECK® AND THE REMAINING 40% IN NORMAL PLASDECK®. THIS ALLOWS IT TO BE EVEN MORE ECOLOGICAL AND AT THE SAME TIME CHEAPER WHILE MAINTAINING THE SAME QUALITY AND LOOK OF PLASDECK®.
